

We're the consultant's champion

The voice for consulting and engineering in Aotearoa New Zealand

MISSION

To elevate the voices, expertise and readiness of consultants in the built and natural environment through advocacy, empowerment and leadership

STRATEGIC OBJECTIVES

Driving change as the voice for consulting and engineering

Powering successful businesses that are ready for the future

Growing consulting excellence

Building an aligned and resilient organisation

FOCUS AREAS

Use data and storytelling to showcase the value members bring to clients and communities

Secure strategic partnerships to support members' business needs

Enhance consulting capability through a digital competence framework and future leaders programme

Implement a new AMS to enable more effective and efficient engagement with our members

Showcase to clients how we can work better together for more efficient and effective service planning and delivery

Enable members to adapt their businesses for the future of consulting

Attract talent to consulting by showcasing the career opportunities available

Activate our regional chair network to ensure influential regional leadership for ACE

Grow our engagement and influence with local government and the private sector

Provide members with up-to-date data on business practices to benchmark their progress and business development opportunities

Develop ACE's cultural competence so we can better engage with, reflect and serve our community

Share our expertise globally, including the Diversity Agenda

Evaluate our membership criteria and consider broadening it
